Hon. Commissioner of Patents  
and Trademarks  
Washington, D.C. 20231

Sir:

In response to the office action mailed March 17, 1998, please amend the above application as follows:

IN THE CLAIMS

6. (THRIC AMENDED) A secure identification method, the method comprising the steps of:

capturing a first graphical representation of a subject at a first data terminal;  
transferring the first graphical representation of the subject to a centralized computer located remotely from the first data terminal;  
receiving the first graphical representation of the subject at the centralized computer, and storing information representative of the subject in a relational database disposed at the location of the centralized computer;  
associating the graphical representation with at least one computer activation datum;
